Remedy Phytoplex Hydraguard*

*Click on product name to view an online application video

- Remove excessive stool.
- Cleanse area with **Remedy Cleanser**.
- It is not necessary to remove all of the **Z-Guard**, only the dirty portion.
- DO NOT SCRUB!!!
- Apply a thin layer of **Z-Guard**.
- If you need to see the skin and completely remove **Z-Guard**, allow **Remedy Cleanser** to stay on skin longer to soften **Z-Guard**.
- Do not wipe extra **Z-Guard** from gloved hand to brief.

Too thick

Normal removal

Complete removal

Pressure injury prevention recommendations

- Turn and reposition every 2 hours or more frequently per care plan, using appropriate positioning devices.
- Remember that residents in a chair need repositioning per care plan.
- Offload heels using pillows or heel offloading boots – if resident won't/can't keep legs on pillows, then boots are necessary for offloading.
- Apply moisturizer twice daily and after bathing.
- Encourage food, fluid, and supplement intake.
